# R-evolve

## Roll out Systemic Change to evolve the Furniture Industry towards CE through the Implementation of innovative Circular Business Models, Material & Design Strategies, and the Digital Product Passport

Empowering Women Leaders in the Furniture Sector

10. June 2026

Funded by
the European Union

# R-evolve in a nutshell

**Support the EU furniture industry in aligning with the ESPR**

**Develop and test tools supporting the implementation of CE-oriented product-system innovations**

- CE-oriented business models
- Circular product design
- Circular material strategies (recycled/biobased)
- DPP as enabler: Governance framework

Funded by the European Union

# Objectives of R-evolve

**30 – 35 – 19**

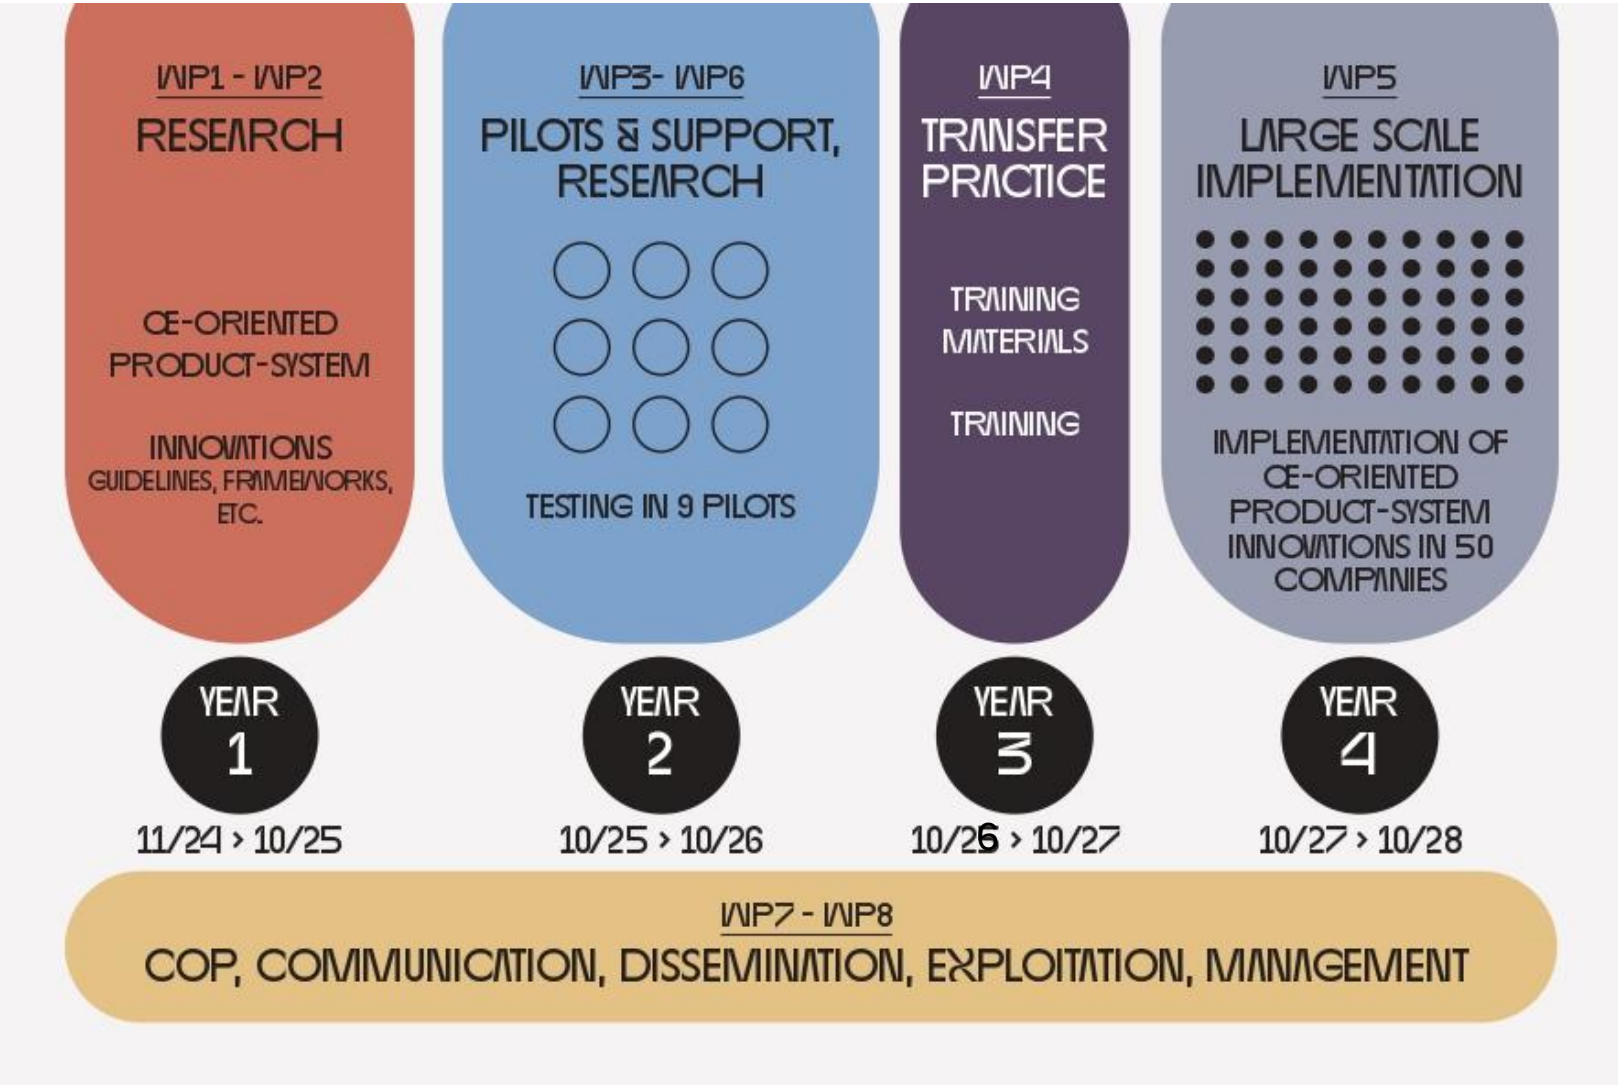

- At least **30** innovative (re-)designs of furniture products and their associated value chains for extended product lifetime.
- Systemic implementation by at least **35** companies of context-specific CE-oriented business models accepted by the consumer.
- Design of a DPP Governance Framework for furniture enhanced to comply with ESPR requirements, implemented as a digital tool, and tested with **19** companies and their value chain stakeholders.

Funded by the European Union

# Overview of the Project Process

Funded by the European Union

# 11/2024-10/2028

# 24 Partners

- 6 Manufacturers
- 1 Retailer
- 1 IT Expert

- 9 Associations

- 7 Research Organisations

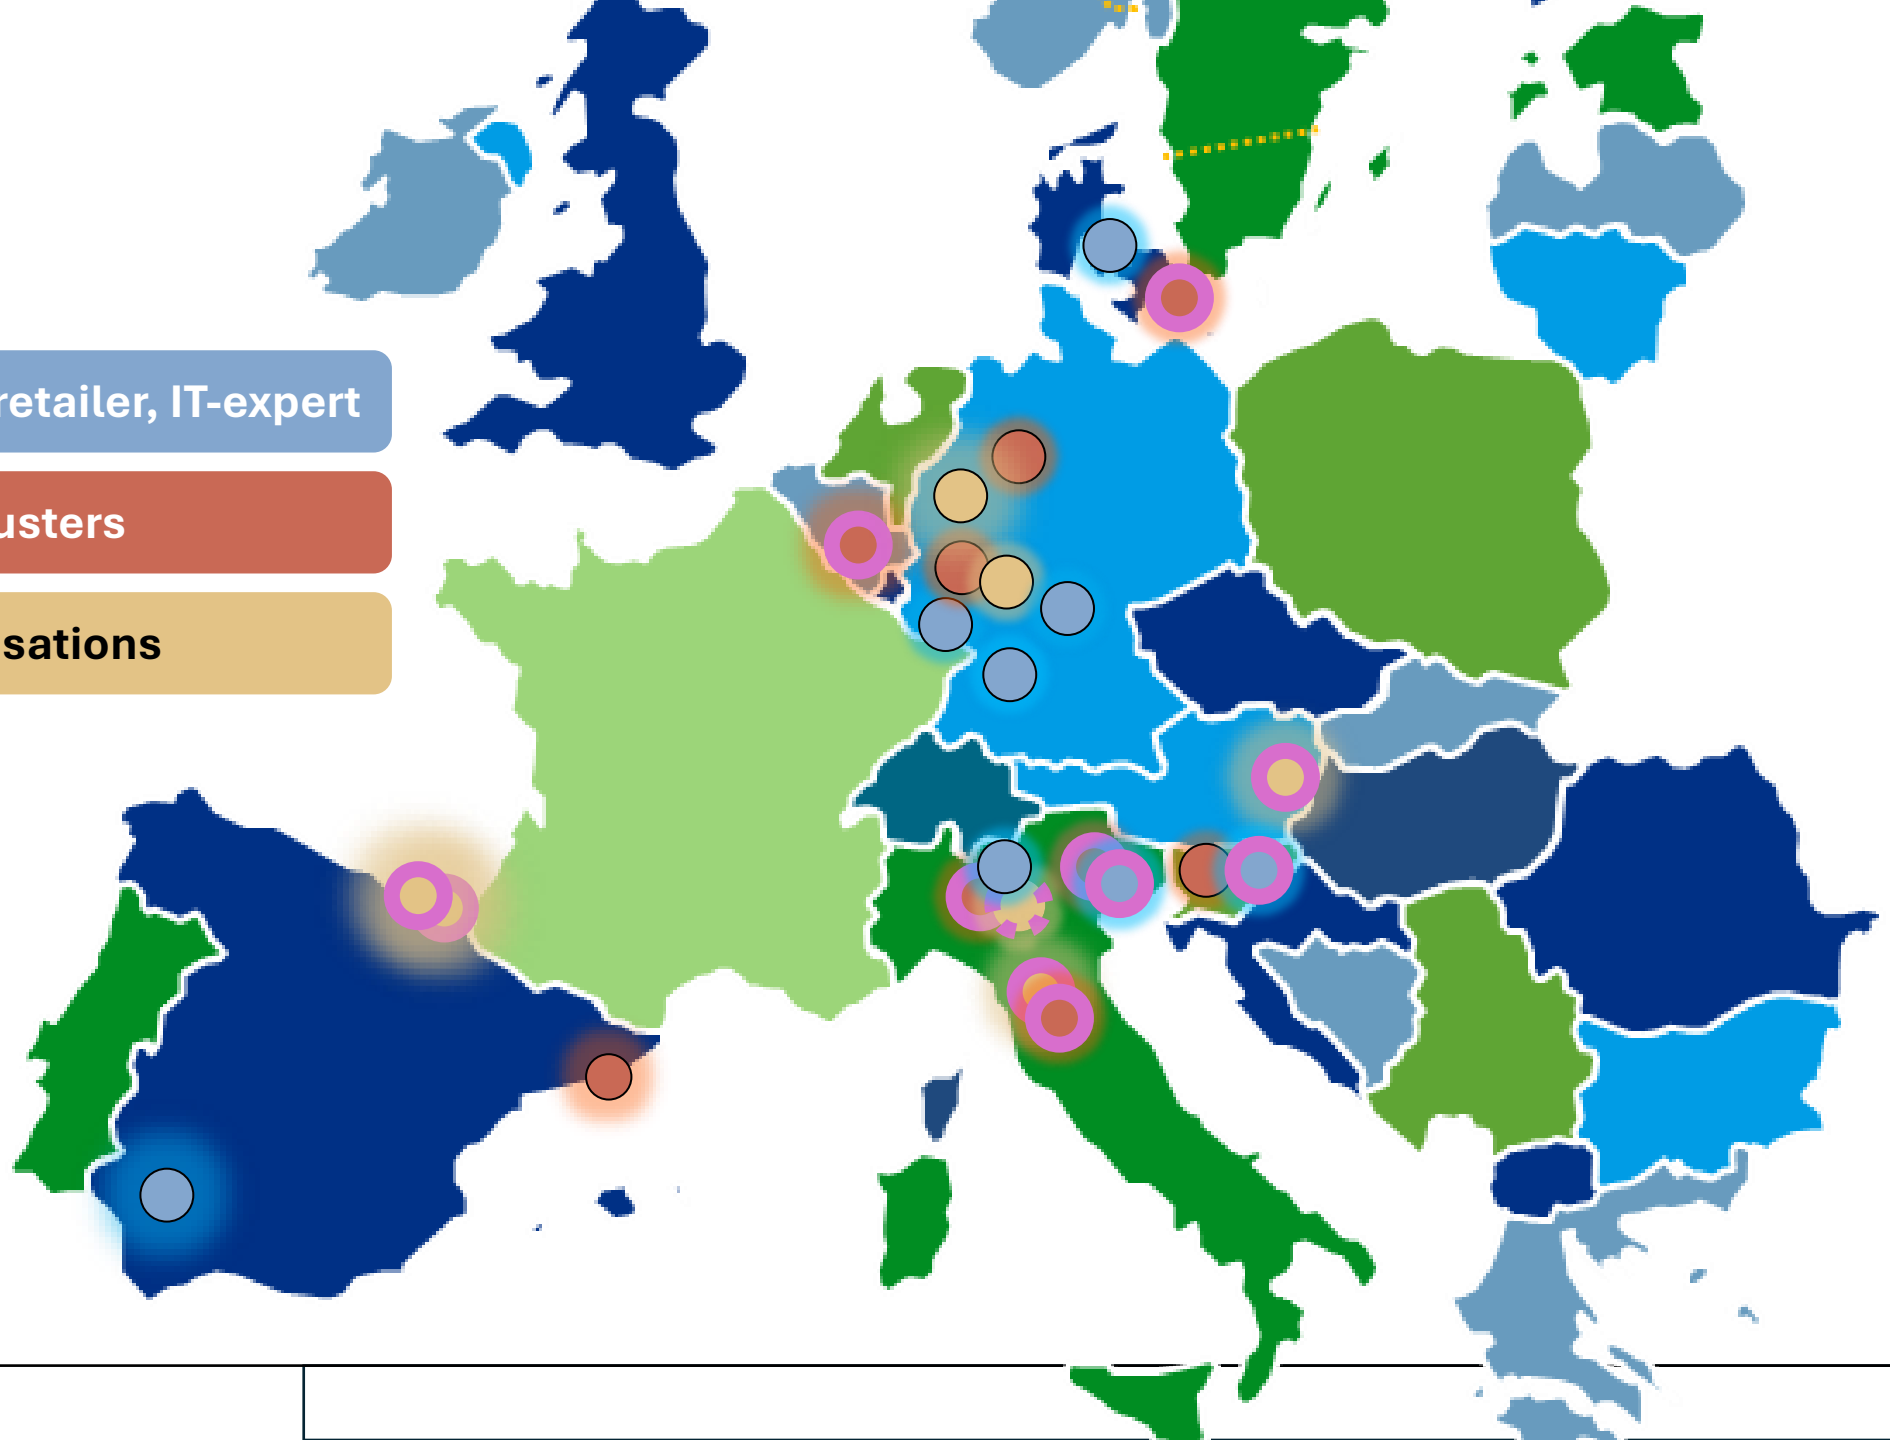

Funded by the European Union

Manufacturers, retailer, IT-expert

Associations, clusters
